DETAILED ACTION

Response to Petition

The examiner has reviewed the supplemental IDS received on 4-20-04 and upholds his allowance.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The examiner has reviewed and signed the IDS that was received on 4-20-04.

In the examiner's opinion, the prior art cited does not read on the applicant's allowed patent application for several reasons:

1. The Porter patent does not explicitly teach characterizing hardware dependencies for a multi-channel communication system.
2. The Porter patent does not explicitly teach identifying constraints and interdependencies among hardware resources based on stored and/or queried hardware resource characteristics.
3. The Porter patent does not explicitly teaches generating an abstract resource specification - based on the identified constraints and interdependencies used during hardware resource allocation to enable maximum preservation of most functional and least available hardware resources during hardware resource allocation.
4. The Porter patent does not explicitly identify hardware resource groups or boundaries among system hardware resources and/or assign associate labels to identify relationships, if any, between system resources and external hardware to identify redundant resources within respective ones of the resource groups and to characterize dedicated coupling between individual ones of the hardware resources.
5. The Porter patent does not explicitly teach a hardware resource interdependency tracking device, an association labeling device, a processor for interpreting an abstract resource specification.
6. The Porter patent does not explicitly teach querying a static system hardware specification, performing a dynamic hardware resource investigation and interpreting an abstract resource specification.

Art Unit: 2683

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
